SUMMARY

I'm a Mid-level Front-End Developer with a strong UI/UX background, focused on building clean, responsive, and user-centred web applications. I work mainly with React, Next.js, JavaScript, and Tailwind CSS, and I enjoy turning UI designs into scalable, high-performance interfaces that provide great user experiences. I have strong hands-on experience with JavaScript (ES6+), including DOM manipulation, asynchronous operations (fetch, promises), event handling, and state-driven UI logic.

EDUCATION

Bachelor's degree –Major

Modern academy faculty of BIS English
Grade of Graduation – Very-Good

Year of Graduation: 2025
